## EDUCATION

Barani Institute of Information Technology

Bachelor of Science in Information Technology (BSIT)

Government Post Graduate College Asghar Mall Rawalpindi

Intermediate(ICS)

## SKILLS SUMMARY

- **Languages:** Swift, SQL, JAVA(Basic), C#(Basic)
- **Frameworks:** UIKit, SwiftUI, Core Data, Core Animation, Core Graphics, Alamofire
- **Tools:** Xcode, Git, App Store Connect, TestFlight, VS Code
- **Platforms:** iOS, iPadOS
- **Additional Technical Skills:** Auto Layout, URLSession, Alamofire, UserDefaults, Core Data, SQLite, Multithreading with GCD, OperationQueues, Memory management & performance optimization, Debugging & troubleshooting, Third-party API integration, MVC, MVVM
- **Soft Skills:** Collaboration & communication, Teamwork, Problem-solving, Code cleanliness and maintainability

## WORK EXPERIENCE (2 YEARS)

### NineSol Technologies

May 2024 - NOW

- Integrated custom APIs to enable dynamic content and user personalization.
- Implemented audio support and multilingual functionality to improve app accessibility.
- Created features for custom content editing and real-time interaction in visual tools.
- Optimized app performance to deliver faster load times and smooth user experience.
- Collaborated with teams to align technical solutions with business goals and user expectations.

### SevenSol Technologies

Jun 2023 - May 2024

- Implemented multilingual support and audio features to enhance accessibility and inclusivity for diverse user groups.
- Developed scalable and high-performance iOS apps, achieving strong user retention and consistently positive feedback.
- Improved UI/UX design for smoother navigation and more intuitive user interaction, increasing user satisfaction.
- Consistently delivered projects on time and within scope, aligning with business goals and exceeding client expectations.

## PROJECTS

### Postage Pigeon

- Postage Pigeon is an event-based iOS app that allows users to create, customize, and send digital invitations with ease.
- Built using a clean MVVM architecture and Alamofire for API integration.
- Supports editing event cards with features like text customization, font styling, element repositioning, undo/redo, and more.
- Users can manage guest lists, send invites, and track all events, including upcoming, past, and received ones, in one organized space.

### AI Art Generator (update 1.3.4) [View App](#)

- AI Art Generator is an innovative app that transforms text into stunning images using advanced AI models.
- Enables users to generate unique artwork based on their text descriptions.
- Enhances output with high-quality image scaling to produce crisp, detailed, and visually refined results.
- Focused on delivering a highly engaging and aesthetically appealing AI-generated art experience.

### Photo Vault [View App](#)

- Photo Vault is a secure iOS app that allows users to lock and protect private photos, videos, and contacts.
- Implements advanced security features to ensure that personal data is accessible only to authorized users.
- Designed for privacy-conscious individuals, offering a seamless and intuitive way to hide and secure sensitive files.

### Surah Yaseen(Convert Objective-C to UIKit) [View App](#)

- Surah Yaseen is a comprehensive Islamic app featuring five Surahs with multilingual translations.
- Includes audio playback for seamless listening and enhanced spiritual convenience.
- Offers a curated collection of essential Duas, supporting users in daily recitation and supplication.
- Designed to help users recite, understand, and listen to Quranic verses anytime, anywhere.

### AR Drawing

- Developed AR Drawing, an interactive app that allows users to sketch from images using the camera or text input.
- Enabled users to color individual elements within a variety of images, encouraging creativity through a fun and engaging experience.

### Motion Leap

- Built Motion Leap, an iOS app that animates selected areas of any image using smooth and natural transitions.
- Implemented dynamic overlays to enhance visual appeal and bring static images to life.
- Added export options allowing users to save animations as video, live photo, or GIF, providing multiple creative sharing formats.
- Focused on delivering a user-friendly interface to support quick editing and high-quality animation output.
